

atomberg

"Why not?"

India's No. 1 BLDC fans

with 1 crore+ happy customers

Product catalogue Summer 2026

atomberg

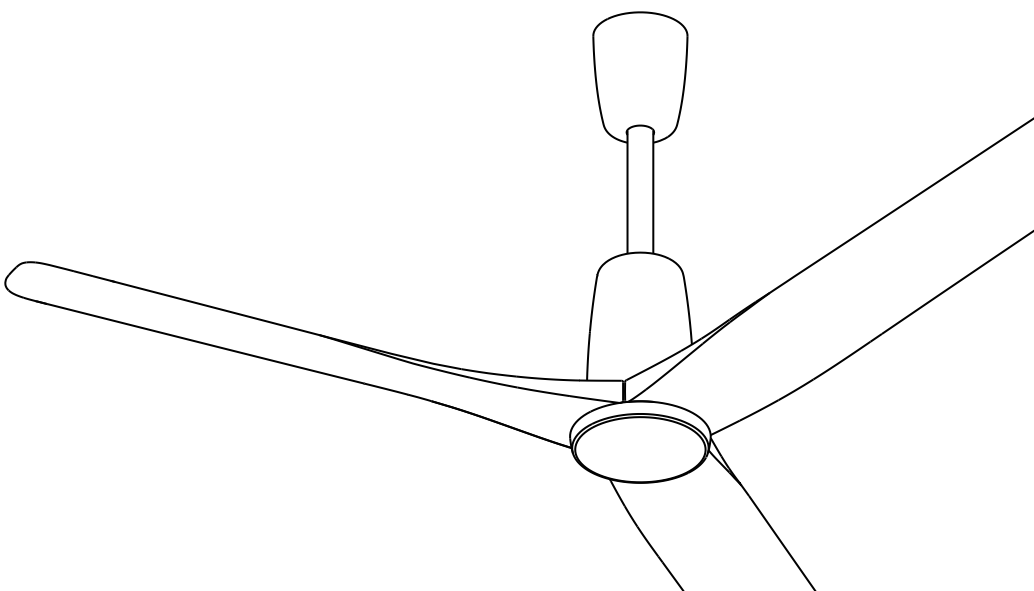

"Why not?"

Proudly made in India, Atomberg fans are trusted by
1 crore+ happy customers across the country.

Every fan is engineered for long-lasting performance and put through 34 stringent quality checks by independent certified labs. On the rare occasion you need support, help is readily available, with service coverage across 19,000+ pincodes. Our service executives are equipped to assist you right at your doorstep.

Chosen by 50,000+ retailers nationwide and among the top-rated on e-commerce platforms, Atomberg has found its place in homes across India. With best-in-class air delivery, effortless control, a wide range of designs, and low energy consumption,
our fans are built for reliable everyday performance.

Over 10 years, this results in measurable impact:
A 5-star rated Atomberg BLDC fan can help reduce up to 1,500 kg of CO_2 emissions—the equivalent of planting 60 trees.
You can also save up to ₹15,000 on electricity bills over the same period.
Pretty cool, right?
Take home a piece of bold innovation today.

Our journey

2012
Incubated at Society of Innovation & Entrepreneurship (SINE) in IIT Bombay

2015
Ventured into consumer durables by launching ceiling fans. Sold 500 fans in the first month

2016
Started Online Sales : became a B2C and D2C brand

2018
Entered offline retail market

2019
Sold 1 lakh fans & expanded to 150 cities

2020
Established across 30k retail partners

Sprawling manufacturing facility

High-tech assembly lines

India's largest BLDC fan plant

A state-of-the-art manufacturing unit

2021

Expanded to 1500 towns

2022

Built India's largest BLDC manufacturing plant

2023

Ventured into smart home security with smart locks

2024

Ventured into kitchen appliances with mixer grinders

2024

1 crore+ happy customers

2025

Expanded our kitchen portfolio with water purifiers and cold press juicers

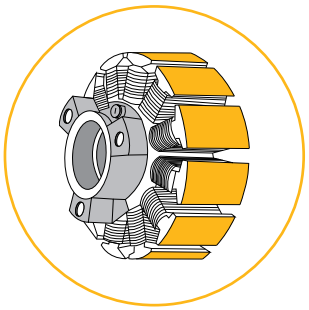

Highly trained work force

Robust quality checks

- Spread over 2,00,000 sq. ft.
- Designed and manufactured in Pune, India

BLDC technology

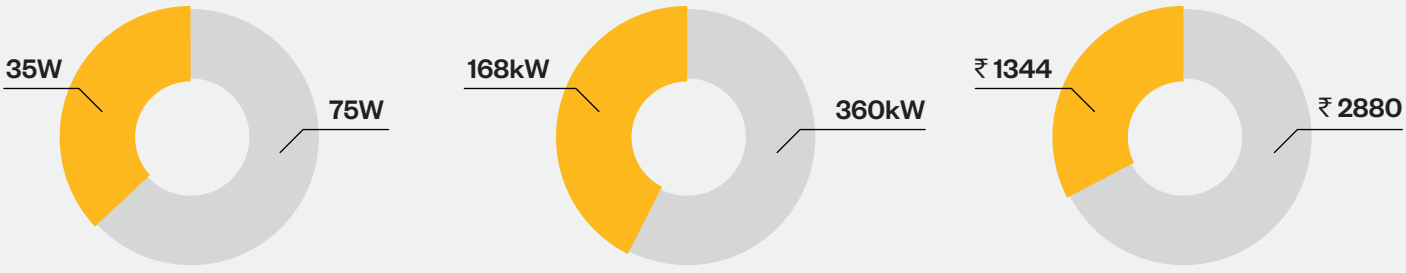

The power behind our fans

BLDC (Brushless Direct Current) motors feature a single winding and powerful permanent magnets, with commutation managed by advanced electronics. Our fans utilize a proprietary sensorless algorithm, ensuring efficient performance while consuming only a fraction of the power at top speed#.

Benefits of BLDC technology

- Energy efficient BLDC motor
- Up to 65% electricity savings
- Low noise
- Runs at consistent speed even on inverter
- Consistent speed even at fluctuating voltage
- No motor over heating

The perfect blend of style & savings

Wattage (W) | Energy use/year* (kWh) | Electricity cost/year in ₹

Savings/year ~ ₹ 1500

***Assumptions:**
usage of 16 hours/day, for 300 days a year with electricity rate of ₹8/unit

Atomberg fan | Unrated fan

#compared to unrated fans

Power consumption at each speed

The power consumption of Atomberg fans varies with the speed at which they are set.
At speed 3, they consume less power than an LED bulb.

Speed	Lifestyle and Silent Fans	Sleek, Designer and Timeless Fans
6	41W	35W
5	27W	26W
4	19W	18W
3	12W	10W
2	7W	6W
1	5W	4W

The above specifications apply to Atomberg 1200mm ceiling fans.

What makes us the best choice in fans?

Looking for Regulator fans?

Refined designs for every home

Savings of BLDC. Familiarity of regulator

Unique features

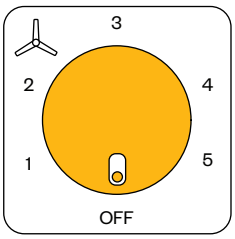

Energy saving

Save up to ₹1500 per year*

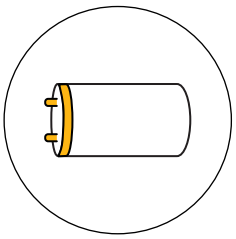

*Compared to unrated fans

Compatible with most regulators

Works with
4-step & 5-step regulators

8µF capacitor

Safe, stable & reliable performance with fire-safety compliance

Why does air delivery matter?

Air delivery, not RPM, determines a fan's performance

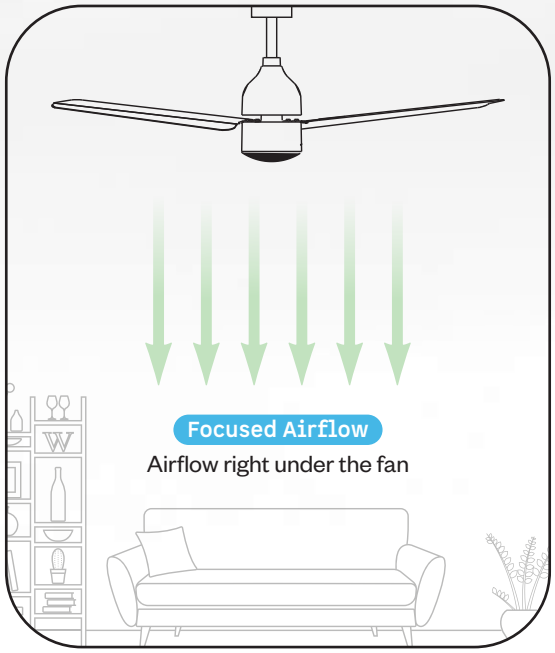

Air delivery CMM is measured as the volume of air moved by the fan, in cubic metres per minute

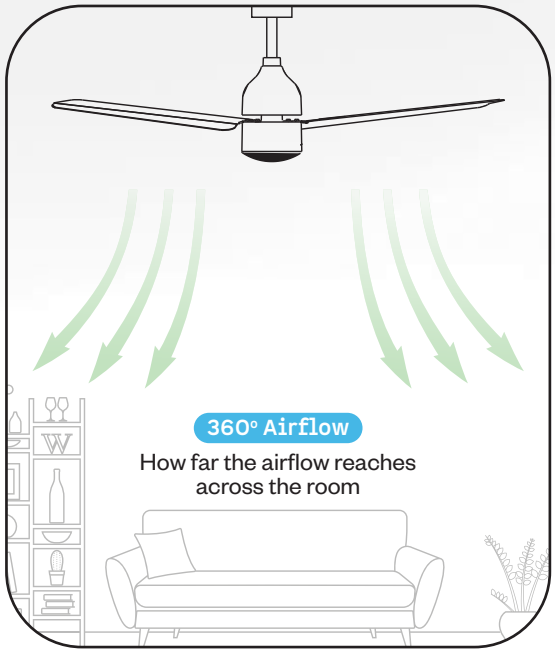

The higher the air delivery, the stronger the breeze you feel

Understanding airflow

When a fan moves air,
two things matter the most—Focused airflow & 360^0 airflow

ADVANCE air+ TECHNOLOGY
powered by atomberg

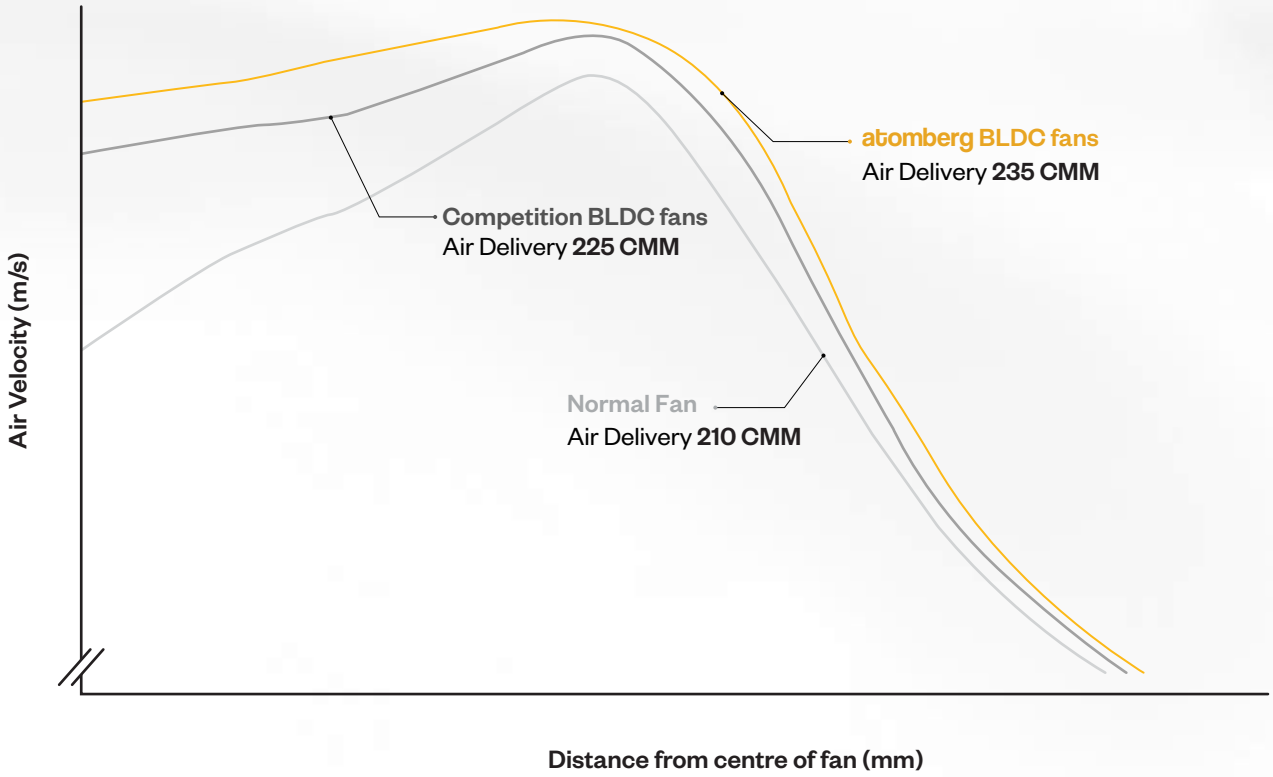

Best-in-class **air delivery**

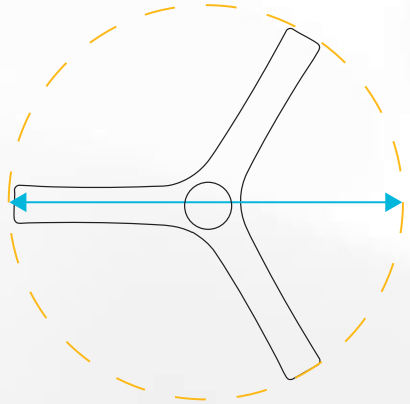

Unique motor–blade combination that enhances air delivery

Best-in-class airflow, ahead of its peers

Stronger breeze that reaches every corner of the room

Air delivery comparison

Which ‘sweep size’ to buy?

Sweep size is the diameter of the fan. A ceiling fan's air delivery is proportional to its sweep size. The larger your room, the larger the sweep size that you need.

Room size	Sweep size	Airflow
Bathroom, Kitchen, Balcony <30sqft	600mm	Focused - **BEST** 360⁰ - **MODERATE**
Small room 30-65 sqft	900mm	Focused - **GOOD** 360⁰ - **MODERATE**
Medium room 65-120 sqft	1200mm	Focused - **GOOD** 360⁰ - **GOOD**
Large room 120-225 sqft	1400mm	Focused - **GOOD** 360⁰ - **BEST**
Living room > 225 sqft Min. distance between center of 2 fans : 8ft	1200mm X2 Or 1400mm X2	Focused - **GOOD** 360⁰ - **BEST**

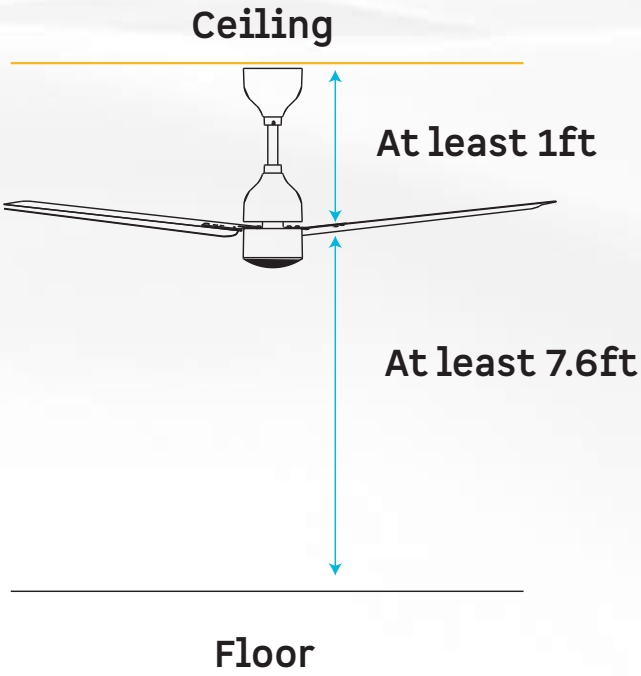

Pro tip

In rooms larger than 120 sq. ft., 1400mm fans deliver strong, focused airflow with best-in-class 360° airflow, keeping every corner comfortably cool

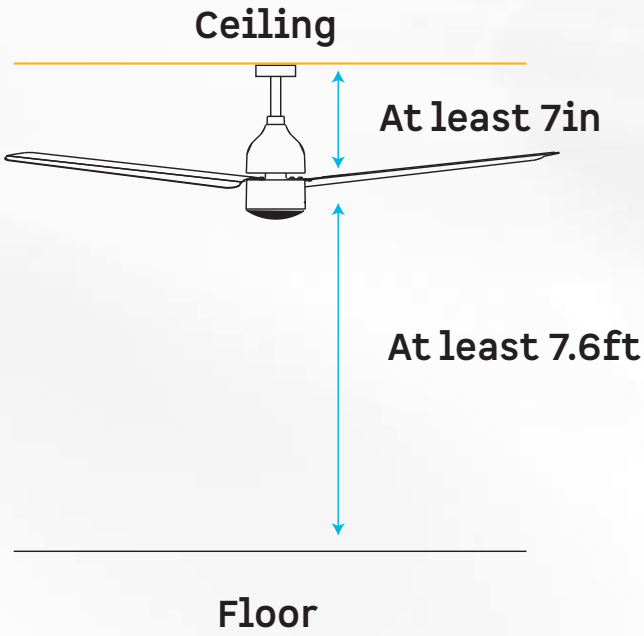

Do you have a false or low ceiling?

Top canopy
for standard ceiling

Ceiling plate
for false or low height ceiling

Most of our fans are compatible with **false/low-height ceilings** by using a ceiling plate instead of top canopy
